

# The 2024 IKCC Global Patient Survey on Kidney Cancer and Growths is Now Open!

The information gathered in the Global Patient Survey helps local patient organisations and IKCC create education, awareness and advocacy programs that respond to the needs of people affected by kidney cancer.

## The survey is designed to:

- Identify geographic differences in patients' experiences
- Highlight best practices and unmet needs
- Understand how patient experience is changing over time

## Areas of focus include:

- Access to care
- Quality of life
- Shared decision-making
- Clinical trial involvement

23 September – 15 November

15 – 20 minutes to complete online

Available in 16 languages

## New in 2024:

For every survey completed, IKCC will allocate one Euro into the Seed and Grow Pilot Project Fund\*

\* Up to a maximum of 2,000 Euros.

When local efforts are coupled with a global approach, we can have the greatest impact on improving health equity and patient outcomes for people affected by kidney cancer.
