

WORLD KIDNEY CANCER DAY 2019 "WE NEED TO TALK"

2019 Campaign Report

- On 20 June 2019, the International Kidney Cancer Coalition (IKCC) and its affiliate organizations, Global Sponsors and supporters around the world joined together to mark World Kidney Cancer Day 2019 "We Need to Talk".
- This third World Kidney Cancer Day was a success in raising awareness about kidney cancer globally.
- Based on the reports we have received from the affiliates, sponsors, supporters and WKCD campaign reports, we estimate around 3,000,000 impressions combined. This number includes Programmatic Campaign impressions, which exceeded 1,005,000.

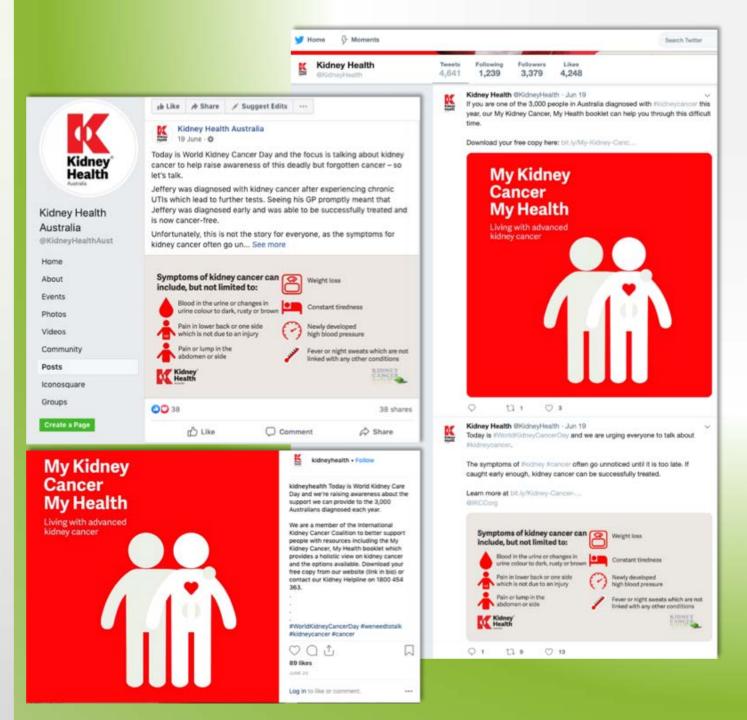

- This reach was magnified by each of the participating affiliates, sponsors and medical associations to create a significant worldwide presence.
- As a result, over 33,600 visited the WKCD 2019 website and 5,953 people completed the quiz*, with 883 who watched the WKCD 'Hear the Experts Talk' video.
- The highlights of WKCD 2019 are the collaborative efforts amongst affiliates, sponsors and supporters, as seen in Brazil, Mexico, Spain and Canada-USA's "Day of Kidney Cancer Talk" webinar.
- "Day of Kidney Cancer Talk" was a joint collaboration across borders between Kidney Cancer Canada and KCCure in the USA, which featured many expert speakers from both countries and receiving callers from all over the world.
- Working together we are stronger and have a greater impact on the general public, our sponsors and across the globe to improve the awareness of Kidney Cancer.

*Almost identical to WKCD 2018's quiz completion ratio.

Борка - за секој нов ден Desert 21 June - Q

Вчера го одбележавме светскиот ден на ракот на бубрегот, а денеска со оваа објава ја одбележуваме целата недела во која се обидовме да ја подигнеме свеста кај населението за овој тип на рак. Хируршкото лекување е најчесто применуваната метода за лекување на ракот на бубрезите особено во раните стадиуми на болеста кога оваа метода дава објективна шанса за излекување. #WorldKidneyCancerDay #KidneyCancer @UroWeb @Euplatinum

THANK YOU

WORLD KIDNEY CANCER DAY 2019 "WE NEED TO TALK".

Thank you to everyone who took part in 2019. With your commitment to awareness raising, supporting patient advocacy and research, we will continue our combined efforts to reduce the global burden of kidney cancer!

The IKCC and our affiliates around the world wish to thank our sponsors and partners for giving kidney cancer a global voice.
